Proposed Pedestrian and Cycle Bridge Over the Maribyrnong River

The River Valley development team are excited to announce that plans for a pedestrian and cycle bridge over the Maribyrnong River have been submitted for planning approval.

When approved, the bridge will allow River Valley Estate residents access between Brimbank and Avondale Heights. The bridge will allow greater access to Avondale Heights open space, Primary Schools and shops, enhancing the many amenities River Valley has to offer.

Award-winning landscape architects have designed a network of walking and cycling paths that will connect to the proposed bridge site. The bridge will act as a gateway for residents of River Valley to a wider community based environment while providing access to both sides of the river.

"New precinct on historic site"

'The Age'
October 9 2010

"The river precincts were launched in 2007 and, with strong appeal to all homebuyers, the first stages have already sold out.

From a respectable \$315,000, the current land for sale enjoys spectacular river and valley views and prospective purchasers can choose blocks to build on or a house and land package to suit their lifestyle."
